

The Emergency Broadband Benefit Program

WHAT IS THE EMERGENCY BROADBAND BENEFIT PROGRAM?

The Emergency Broadband Benefit Program was established by the Federal Communications Commission (FCC) earlier this year to help households struggling to pay for internet service during the COVID-19 pandemic. Under the Emergency Broadband Benefit Program, eligible households can receive up to \$50 a month towards broadband service and up to \$75 for households on Hawaiian Home Lands.

The program is limited to one monthly service discount. Eligible households may also receive a one-time discount of up to \$100 to purchase a laptop, desktop computer or tablet from participating Hawaii internet service providers if they contribute a minimum of \$10 towards the purchase price.

 - Filed for unemployment or PUA or experienced a decrease of hours in the last year
